

eCapabilities Resources for IDA's Core Carriers

Version 01: 05/07/2020

The purpose of this report is to provide links to key resources for each Core Carrier. These resources will identify the primary parts of the carriers' eCapabilities, from "virtual client meetings" to "e-applications" to "e-delivery" and more. Many carriers have centralized their resources onto a single website – making it easy to find their end-to-end platform. Others still rely on a series of disconnected PDFs. We have tried to accommodate both here.

CARRIER	RESOURCES	
AIG	Remote Business Processing FAQs	New Normal Playbook
